

News Release

Bewater Launches New Social Channels Aimed at '*Bringing Water to Life*'

Surrey, UK – 8 March 2018: Bewater has launched new Twitter and Instagram accounts to increase the company's online presence, as well as its engagement with stakeholders spanning the globe. The overarching theme of the new channels is '*Bringing Water to Life*'.

All of our work centres around water, which we strive to appreciate, respect and safeguard. As a world leader in treated water we work tirelessly to give water sources a new lease of life, benefiting millions of people around the world. Our new social channels will aim to share more about the water we treat, the places we work and the communities we serve.

With our 50th Anniversary being celebrated later this month, these social channels introduce our anniversary logo. On an ongoing basis, our channels will be packed full of company insights and footage from our international projects, as well as some interesting snippets of history from the archive during this important milestone year!

Encouraging you to follow us online, Sir Adrian White, Bewater's Chairman, has gone live with our first tweet and Instagram post!

Follow us via these new channels:

About Biwater:

Biwater provides large-scale water and wastewater solutions for clients across the world. Since its inception in 1968, Biwater has gained recognition for its innovative approach aimed at overcoming the world's most pressing water-related challenges. Throughout its history, the company has grown to meet the demands of many water-stressed countries and their burgeoning populations. It has a successful record of accomplishment, having completed over 25,000 projects in over 90 countries – financing, consulting, process engineering, designing, constructing, operating, maintaining and owning water facilities – in both rural and urban environments.
